INNOVATIVE FITTINGS SYSTEMS FROM G-FITTINGS

Innovative, dynamic and modern - with this focus, G-Fittings is one of the leading suppliers of fitting systems today. The company was founded in 1980 from Antiqua Guliker GmbH and has since focussed on the production of high-quality fittings. The name G-Fittings is derived from the first letter of the founding family Guliker and the English word for fittings.

Behind G-Fittings is an experienced team of specialists who are passionate, motivated and enthusiastic about our products and the needs of our customers. Our clear mission drives us every day to develop first-

class fitting systems that fulfil the highest standards in design and technology.

Always striving to find even better solutions, we are constantly working to exceed our customers' requirements. Our aim is to set new trends rather than just follow them.

24/7 ONLINE SHOP

Our online shop offers an extensive selection of first-class products. From elegant glass doors and sturdy handrails to innovative sliding door systems - we have everything you need for your building projects.

Visit our online shop today and discover the world of G-Fittings – Quality and innovation for your project.

YOUR ADVANTAGES

HIGH PRODUCT QUALITY

G-Fittings is known for its high-quality products. They ensure that their fittings and systems are robust, durable and reliable. This quality ensures a long product life and minimises the need for frequent replacement parts or repairs.

INNOVATIVE SOLUTIONS

The company focusses on innovation and offers modern and efficient solutions for various applications. Their products are often the result of intensive research and development, which makes them pioneers in the industry. Customers benefit from the latest technologies and designs.

WIDE RANGE OF PRODUCTS

G-Fittings offers an extensive range of fittings and systems. This enables customers to obtain everything from a single source, which saves both time and money. The range covers various needs, from standard solutions to special requirements.

CUSTOMER SERVICE

The customer service from G-Fittings is very good. They offer comprehensive support with product selection, technical questions and installation advice. This service ensures that customers can find and successfully implement the best possible solution for their specific needs.

GUARANTEED DELIVERY TIMES

On-time delivery and availability are decisive factors for many customers. G-Fittings headquarters are situated in the Hanseatic city of Emmerich am Rhein - close to the Dutch border - and therefore offers excellent conditions for the worldwide dispatch of your products.

G-Fittings places great importance on reliable logistics and ensures that orders are delivered on time. Thanks to state-of-the-art software, close co-operation with our shipping partners and around 4,000m² of storage space, you benefit from the shortest possible delivery times.

- 2 Surfaces: brushed and black

DOLORES

GLASS DOOR LOCK WITH HANDLES

- Whisper latch for quiet closing of the door
- From 8 mm to 10 mm glass
- Suitable for DIN left and DIN right
- 3 Surfaces: brushed, polished and black

GWEN

GLASS DOOR LOCK FOR CLAMPING

- Suitable for clamping, no glass processing required
- For 10 mm glass
- Integrated profile cylinder
- Surface: brushed stainless steel

AMARYLLIS

DOOR HANDLE WITH LOCK, TWO-SIDED

- Door handle with bolt that locks into the floor
- From 8 mm to 10 mm glass
- Integrated profile cylinder
- Surface: brushed stainless steel

FREYA

GLASS DOORLOCK

- Made from high-quality stainless steel
- From 10 mm to 12 mm glass
- Flexible mounting options
- Surface: brushed stainless steel

SLIDING DOORS

Sliding doors from G-Fittings are an excellent choice when it comes to designing stylish and functional rooms. These doors offer an elegant solution for a wide range of living requirements and impress with their versatility - whether running in front of or in the wall, they are space-saving, elegant and innovative.

- Large selection of different profiles and systems
- Versatile application options for residential and commercial areas
- High-quality materials and precise workmanship ensure a long lifespan

MAGLEV

ELECTRIC SLIDING DOOR WITH MAGNETIC DRIVE

- Smooth and quiet running thanks to magnet-driven, ball-bearing plastic rollers in the aluminium profile
- Max. door weight up to 100 kg
- From 8 mm to 10 mm glass
- No glass processing required
- For ceiling and wall mounting

SINA

SLIDING DOOR

- Max. door weight up to 120 kg
- Incl. soft-close function and floor guide
- From 8 mm to 12.76 mm glass
- Lengths: 2500 and 5000 mm
- No glass processing required
- Installation on ceiling, wall and all-glass wall
- 3 Surfaces: silver matt anodised, brushed and black

BERTIE

SLIDING DOOR WITH ANTI-LIFT DEVICE

- Max. door weight up to 100 kg
- From 8 mm to 12.76 mm glass
- Magnetic anti-lift device for insertion into the trolley
- Installation on wall and all-glass wall
- Point holder with concealed screws
- 2 Surfaces: brushed and black

MADINA

TELESCOPIC SLIDING DOOR SYSTEM

- 3-track sliding door system
- Max. door weight up to 120 kg
- From 8 mm to 10 mm glass
- No glass processing required

ROWANA RECESSED GRIP FOR GLASS DOOR

- No glass processing required, self-adhesive
- Material: stainless steel AISI 304 (V2A)
- 3 Surfaces: brushed, polished and black

MARGHERITA GLASS DOOR KNOB, DOUBLE-SIDED

- From 6 to 12 mm glass
- 4 Surfaces: brushed, polished, black and matt brass

AIJE GLASS DOOR KNOB, DOUBLE-SIDED

- From 8 to 12 mm glass
- 3 Surfaces: brushed, polished and black

GLASS PARTITION WALLS

The glass partition wall system from G-Fittings is a true all-rounder: with its elegant, slimline frame construction, it enables open, light-flooded room concepts that also offer maximum discretion - thanks to sound insulation of up to 44 dB. The system impresses with its versatile installation options and high-quality profiles that are quick and easy to install. Create a completely new sense of space with glass walls.

- The clever profile system enables quick installation
- Versatile use as a partition wall, with side panel or fanlight
- Narrow floor and wall profiles for a uniform look
- Available in four surfaces: silver matt anodised, black, brushed and raw
- Stable frame system with secure hold

HIGH-QUALITY ALUMINIUM PROFILES

The glass partition wall system from G-Fittings offers a stylish solution for transparent room design. The slim frame construction enables bright, spacious room concepts and creates a pleasant atmosphere without sacrificing privacy. With sound insulation of up to 44 dB, the system ensures peace and discretion in both living and working areas.

Thanks to flexible installation options, it can be customised to suit your interior design. The high-quality profiles ensure quick and uncomplicated installation.

- Aluminium profiles in four standard surfaces
- Easy door hinge mounting
- Versatile use as a partition wall, with side panel or fanlight
- Suitable for DIN left and DIN right
- RAL colours available on request
- Sound insulation up to 44 dB

CUSTOMISED SOLUTIONS

COVER

Profiles with a height of 30 and 40 mm can be used for installation on the ceiling. A glazing gasket is fitted on the inside of the U-profile.

FLOOR

Two-part profiles are ideal for floor installation. The profile consists of two parts, with the closing profile being inserted after the glass has been installed.

WALL

The two-part profiles with a height of 30 and 40 mm are suitable for vertical wall mounting. The profiles are suitable for glass from 8 mm to 21.52 mm.

CORNERS

A precise mitre cut allows perfect corner joints to be created, ensuring a clean and seamless appearance.

DOOR FRAME

The door frame profile can be used for timber and glass doors. It has an integrated rail for fixed glass at the side and top.

DOOR HINGES

Various door hinges are available for mounting your door. High-quality materials ensure long-lasting and safe use.

TERRACE GLAZING

Whether for the private summer garden or as a practical patio partition in the catering trade: with AGAPE patio glazing from G-Fittings, you can create a flexible and transparent solution that stylishly separates outdoor areas. You have the choice between two floor rails: A variant that is recessed into the floor or a surface-mounted track that can be easily installed.

- Installation with recessed or surface-mounted floor rail
- 2-6 sliding elements possible
- Total widths of over 15 m can be realised thanks to connecting elements
- Available in 6 standard surfaces (other RAL colours on request)
- Perfect alignment thanks to height adjustability

AGAPE

TERRACE SLIDING GLASS WALL

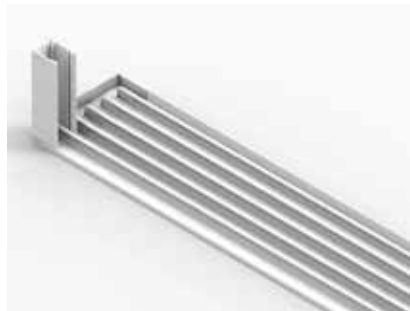

- Durable and weatherproof
- Extremely low floor rail (21 mm)
Ensures effortless entry and exit
- 2 types of installation: attached and recessed
- No glass processing required
- Suitable for 10 mm glass
- Max. glass panel height: 3000 mm
- Max. glass panel width 1300 mm
- With locking on both sides for outer sashes
- Flat floor rail for easy cleaning
- Subsequent height levelling ± 4 mm
- Made to measure: only 12 mm overlap between the glass panels
- Large load capacity up to 130 kg
- Available in 6 standard surfaces
- RAL colours available on request
- Tested according to UNI EN 1932:2013 Class 6

ADVANTAGES AT A GLANCE

SEMICIRCULAR PROFILE

The additional semi-circular profile ensures a barrier-free transition between different heights.

CLEAN SIDE FINISH

No machining of the side profile required. Easy cleaning thanks to the side collecting device.

CORNERS

Corners are possible without additional support posts. Starting from the corner, the panels can be pushed aside to open.

SUBSEQUENT ADJUSTMENT

The carriage can also be adjusted when the sash is installed without having to remove the sash. The system has been tested for 100,000 continuous opening and closing cycles.

HIGH-QUALITY TROLLEYS

The trolleys are characterised by their quiet running and smooth operation. Two wheels with $\varnothing 29$ mm and a stainless steel bearing with $\varnothing 19$ mm and double shielding, load capacity up to 130 kg per door.

IMPROVED DRIVER

The double-sided catch with a larger contact surface ensures that all elements are subsequently pulled along when the sliding glass wall is closed.

CANOPIES

A glass canopy combines stylish elegance with practical functionality. It protects your entrance area from wind and weather without blocking the natural light. Thanks to modern designs and robust materials, a glass canopy blends seamlessly into any architecture and adds a touch of exclusivity to your home. Discover how a glass canopy can enhance your entrance area - timelessly beautiful and highly functional.

- Canopies with tie rods
- Self-supporting Canopies

DITTIE **GLASS CANOPY** **WITH TIE RODS**

- Simple installation
- For glass thickness: 10 mm - 17.52 mm
- Up to 2.51 kN/m² load capacity
- Customised dimensions possible
- Surface: brushed stainless steel
- Max. projection: 1300 mm

FARAH **GLASS CANOPY,** **SELF-SUPPORTING**

- Simple installation and concealed fastening
- Up to 2 kN/m² load capacity
- Profile width up to 5000 mm
- Several wall profiles can be mounted in series
- For glass thickness: 17.52 mm, 21.52 mm and 25.52 mm
- Max. 1500 mm projection
- No tie rods required
- Glass inclination can be adjusted retrospectively

NANE **GLASS CANOPY,** **SELF-SUPPORTING**

- Timeless and appealing design
- For glass thickness: 16.76 and 17.52 mm
- Up to 3.8 kN/m² load capacity
- Length: 1500 mm or 3000 mm
- RAL colour as required (optional)
- Quick and easy installation
- Max. projection: 1200 mm

BATH & SHOWER

In the bathroom and shower area in particular, it's often the high-quality details that make the decisive difference in interior design. Coordinated with quality and style, they set accents that perfectly round off the feel-good ambience. We offer you everything you need for a stylish and functional bathroom - from elegant glass showers to robust stabilising rods and perfectly coordinated seals.

- Solutions for sliding doors, corner, lift-and-lower profiles and walk-in showers
- Large selection of surfaces
- High-quality accessories such as stabilising rods, seals and door knobs
- Accessible products for people with limited mobility

EMILY **SHOWER DOOR FITTING**

- With lifting/lowering mechanism for easy opening and closing
- Locking on both sides at 90°
- For 6 mm glass
- 4 Surfaces: silver matt anodised, polished, black and brass matt

NALA **SHOWER WALL BRACKET 90°**

- Angle rail for stabilising a glass shower screen
- From 6 mm to 8 mm glass
- Mounting: left or right
- 3 Surfaces: brushed, polished and black

LOUISA **GLASS SLIDING SHOWER DOOR**

- No glass processing required
- For 8 mm and 8.76 mm glass
- Suitable for recesses and free-standing showers
- 3 surfaces: silver matt anodised, polished and black

ELMINA **STABILISING BAR FOR SHOWER SCREEN**

- For wall mounting
- From 6 mm to 10 mm glass
- Length: 1000 mm and 1250 mm (can be shortened)
- 4 Surfaces: brushed, polished, black and matt brass

SABIA **SUPPORT POST FOR WALK IN SHOWER**

- With ceiling and floor mounting
- For 8 mm glass
- Invisible fastening
- 3 Surfaces: polished, black and matt brass

SEALS

Seals for showers and glass doors are an essential part of modern bathroom design. They ensure that water stays where it belongs - in the shower. At the same time, they protect against moisture damage and prevent water from penetrating into sensitive areas. G-Fittings offers a wide range of seals in various glass thicknesses and colours.

- Durable and hard-wearing material ensures a long service life
- High sealing effect reliably prevents water from escaping
- Perfect fit guarantees quick and easy installation

PUKKI
MAGNETIC SEAL 180° FOR GLASS DOOR

- From 6 mm to 10 mm glass
- 2 Colours: transparent and black

FRENCES
STRIP SEAL FOR GLASS DOOR

- From 8 mm and 10 mm glass
- 2 Colours: transparent and black

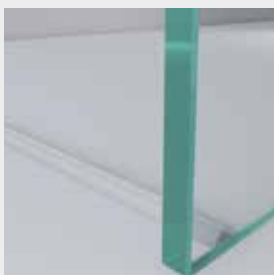

VERA
MAGNETIC SEAL 90° FOR GLASS DOOR

- From 6 mm to 10 mm glass
- 2 Colours: transparent and black

VIVICA
SEALING PROFILE FOR GLASS DOOR

- From 8 mm to 10 mm glass
- 2 Colours: transparent and black

SANI
THRESHOLD PROFILE, SELF-ADHESIVE

- Height: 5 mm or 10 mm
- Acrylic transparent

ALLENA
SEALING PROFILE FOR GLASS DOOR

- From 6 mm to 8 mm glass
- Transparent

TUBE CONNECTOR

Immerse yourself in the world of the pipe connector system and let your creativity run wild. Our system consists of high-quality pipe connectors, flanges and end caps that offer you countless design options. Thanks to the different diameters and surface options, you can design your project exactly as you wish. Discover the world of flexibility and innovation with our pipe connector system - the ultimate modular construction kit for your customised projects.

- Quick and easy installation without special tools or expertise
- High flexibility thanks to various diameters and surface options
- Stable and precise connections for a long service life
- Versatile applicability for different projects and requirements

CERESS TUBE CONNECTOR T

- 2 Diameters: 25.4 mm (1") and 38.1 mm (1.5")
- 4 Surfaces: brushed, polished, brass and black

DAFNE STAINLESS STEEL TUBE

- 4 Diameters: 19.0 mm, 25.4 mm (1"), 38.1 mm (1.5") and 50.8 mm (2")
- 5 Surfaces: brushed, polished, black, brass and matt brass

WALLY WALL AND FLOOR FLANGE

- 4 Diameters: 19.0 mm, 25.4 mm (1"), 38.1 mm (1.5") and 50.8 mm (2")
- 5 Surfaces: brushed, polished, black, brass and matt brass

AMARENTIA GLASS CLAMP

- From 4 mm to 8.76 mm glass
- 5 Surfaces: brushed, polished, black, brass and matt brass

HELLA DOMED END CAP

- 4 Diameters: 19.0 mm, 25.4 mm (1"), 38.1 mm (1.5") and 50.8 mm (2")
- 5 Surfaces: brushed, polished, black, brass and matt brass

PERLA PLASTIC END CAP

- 4 Diameters: 10.0 mm, 25.4 mm (1"), 38.1 mm (1.5") and 50.8 mm (2")
- Material: ABS plastic, black

GASTRONOMY

- Customised dimensions and variants possible
- 2 Diameters: 25.4 mm (1") and 38.1 mm (1.5")
- 3 Surfaces: brushed, black and brass

ROSIHANDRAIL

- Custom dimensions and variants available
- 3 Surfaces: brushed, polished and brass

ANTONETTAGUIDANCE POST

- Extra heavy base plate (22 kg)
- 3 Surfaces: brushed, polished, black and brass

SERVICE AND SERVICES

At G-Fittings, service and support are at the centre of our philosophy. We understand that every project has unique requirements, which is why we offer you far more than just high-quality products. Our dedicated team will support you with customised solutions that are tailored to your exact needs.

- Comprehensive technical support and assistance for your projects
- Individual advice and customised solutions
- Fast delivery and uncomplicated repeat orders for maximum flexibility

SERVICE AND SERVICES

27

At G-Fittings, we are much more than just a supplier. We see ourselves as your comprehensive partner, offering you a wide range of customised services and prefabricated solutions tailored specifically to your needs.

No matter how extensive or complex your project is, our team is at your side with individual advice, precise planning and customised products to ensure that your vision is optimally implemented.

COATING

Powder, PVD and anodised coatings according to your individual specifications.

CAD DESIGN

We create high-quality technical drawings and detailed CAD models.

TECHNICAL SOLUTIONS

Competent support for all technical questions and challenges.

CUTTING

Precise cutting of aluminium profiles and stainless steel tubes to your individual dimensions.

DRILLING

Drilling, flow drilling, milling and thread cutting for posts, hand- and foot rails according to your requirements.

2D AND 3D BENDING

We bend your tubes in both two-dimensional and three-dimensional shapes according to your specifications.

PACKAGING

Packaging and labelling of your products for uncomplicated and error-free delivery to the construction site.

PRE-ASSEMBLY

Pre-assembly of complete shopfitting elements and prefabrication of posts, sneeze guards and bottle shelves.

GLASS MADE TO MEASURE

Complete your project - customised glass to meet your specific requirements.

THE WHOLE WORLD OF FITTINGS, QUALITY AND SAFETY

The fitting systems from G-Fittings are characterised by the highest quality, easy installation and maximum flexibility. Discover our extensive range of doors and door fittings, door handles and knobs, partition walls, canopies, posts, supports, clamps, shower enclosures, tubes, rods and profiles, tube connectors, end caps and a wide range of accessories for installation.

With our glass and furniture fittings, you can realise your ideas of contemporary design and benefit from expert advice, short delivery times and the best prices.

All over the world, customers from the retail and trade sectors as well as architects, planners and builders rely on the expertise, quality and performance of G-Fittings.
